

Communication Newsletter– Autumn Term 2024

All the children are now fully settled into their new classes and have been working hard in all areas of the curriculum but especially with the development of communication. This is achieved through the personalised interventions which take place across school to support our pupils. Some of these include, Intensive interaction, Attention Autism, Talk First and our weekly drama sessions.

We are lucky to have Speech Therapist Freya in school every Thursday, who has been working in classes to support our children as well as upskilling staff in areas of Picture Exchange Communication and word level work.

In addition to supporting the children, we have already had the opportunity to offer a Makaton training session for our ne parents and carers. We will be offering additional sessions throughout the year to help you support your child with communication development.

Please feel free to contact me at school if you require any information, support or ideas.

Many Thanks

Jacqueline Pickles

Communication Specialist
